Looking
Back

Dedication

To those who taught us through our formative years,
To those we frustrated and almost brought to tears,
Thanks for the patience and time you gave,
For being kind even when we'd misbehave.
Without you,

Where would we be now?

To those who are trying to train us here,
To those who frustrate us, and bring out a tear.
Thanks for the knowledge and experience imparted,
For setting us straight on the path where we started.
Without you,

Where would we be now?

To those of us who are planning to teach,
All those children we hope to reach.
Thanks for the friendships along the way,
For all the help during sorrow and play.
Without you,

Where would we be now?

The beginning is the depth of a spring,
It is silent, yet it exists, growing,
Until it must make its joy known.
It erupts from a glade of green,
Hidden from sight, but acknowledged.
Spilling the clarity of its delight
Over ledges, rocks, valleys of silt,
Down the mountain with increasing fury
The roar of white foamed chortles,
Continues to draw from the belly of earth
Until it fades into the sea with a contented sigh.

Kathy Fentiman

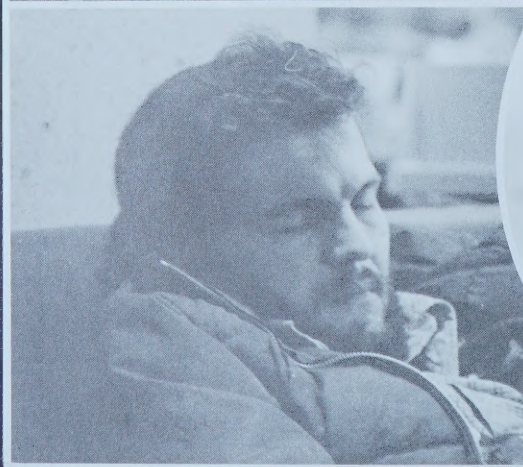

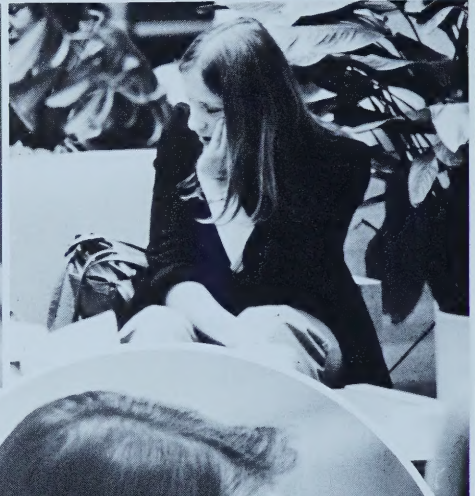

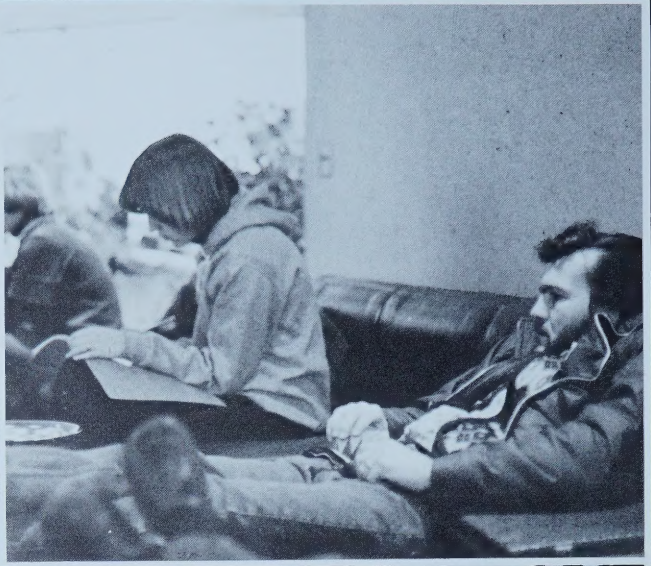

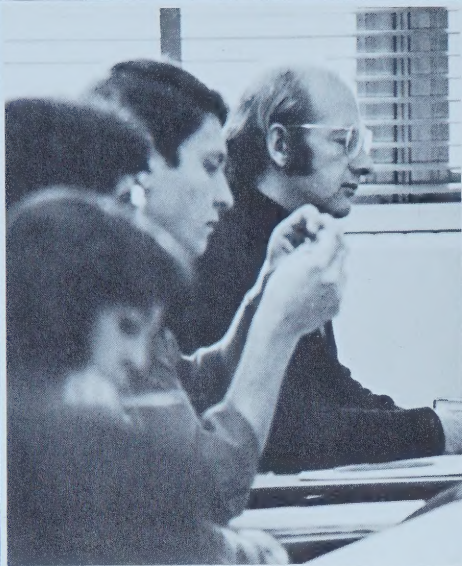

Down we go until
the feeling overcomes.

It starts slowly and
gradually increases
until the momentum
cannot be stopped.

At first we play
the role of the calm,
restrained, individual
void of adverse emotion
able only to fool those
who look at us from the outside.

Then the emotion builds up
to a point where
we can no longer
fool ourselves or others;
The pressure must be released
and we once again become human.

A. Minue

The person who was
going to write the
poem for this space
didn't get around
to it.

Education

An Interview with the Dean

Question: Do you feel that compulsory Education classes are essential?

Answer: Yes, there are certain skills and knowledge all teachers should have. The education courses should incorporate a common knowledge.

Question: What do you believe is a teacher's role in society?

Answer: The teachers, as professionals, are trying to reconcile two basic views of role. These are: (1) reflecting existing society, (2) reforming and challenging society. Literature treats teachers as stereotypes, conservative in their outlook, and preferably women.

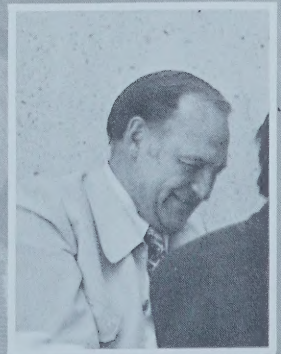

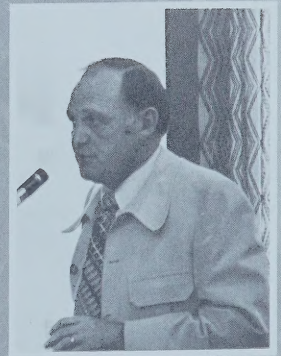

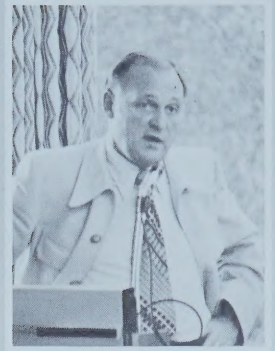

Question: Should we offer a special curriculum program for the Indian population?

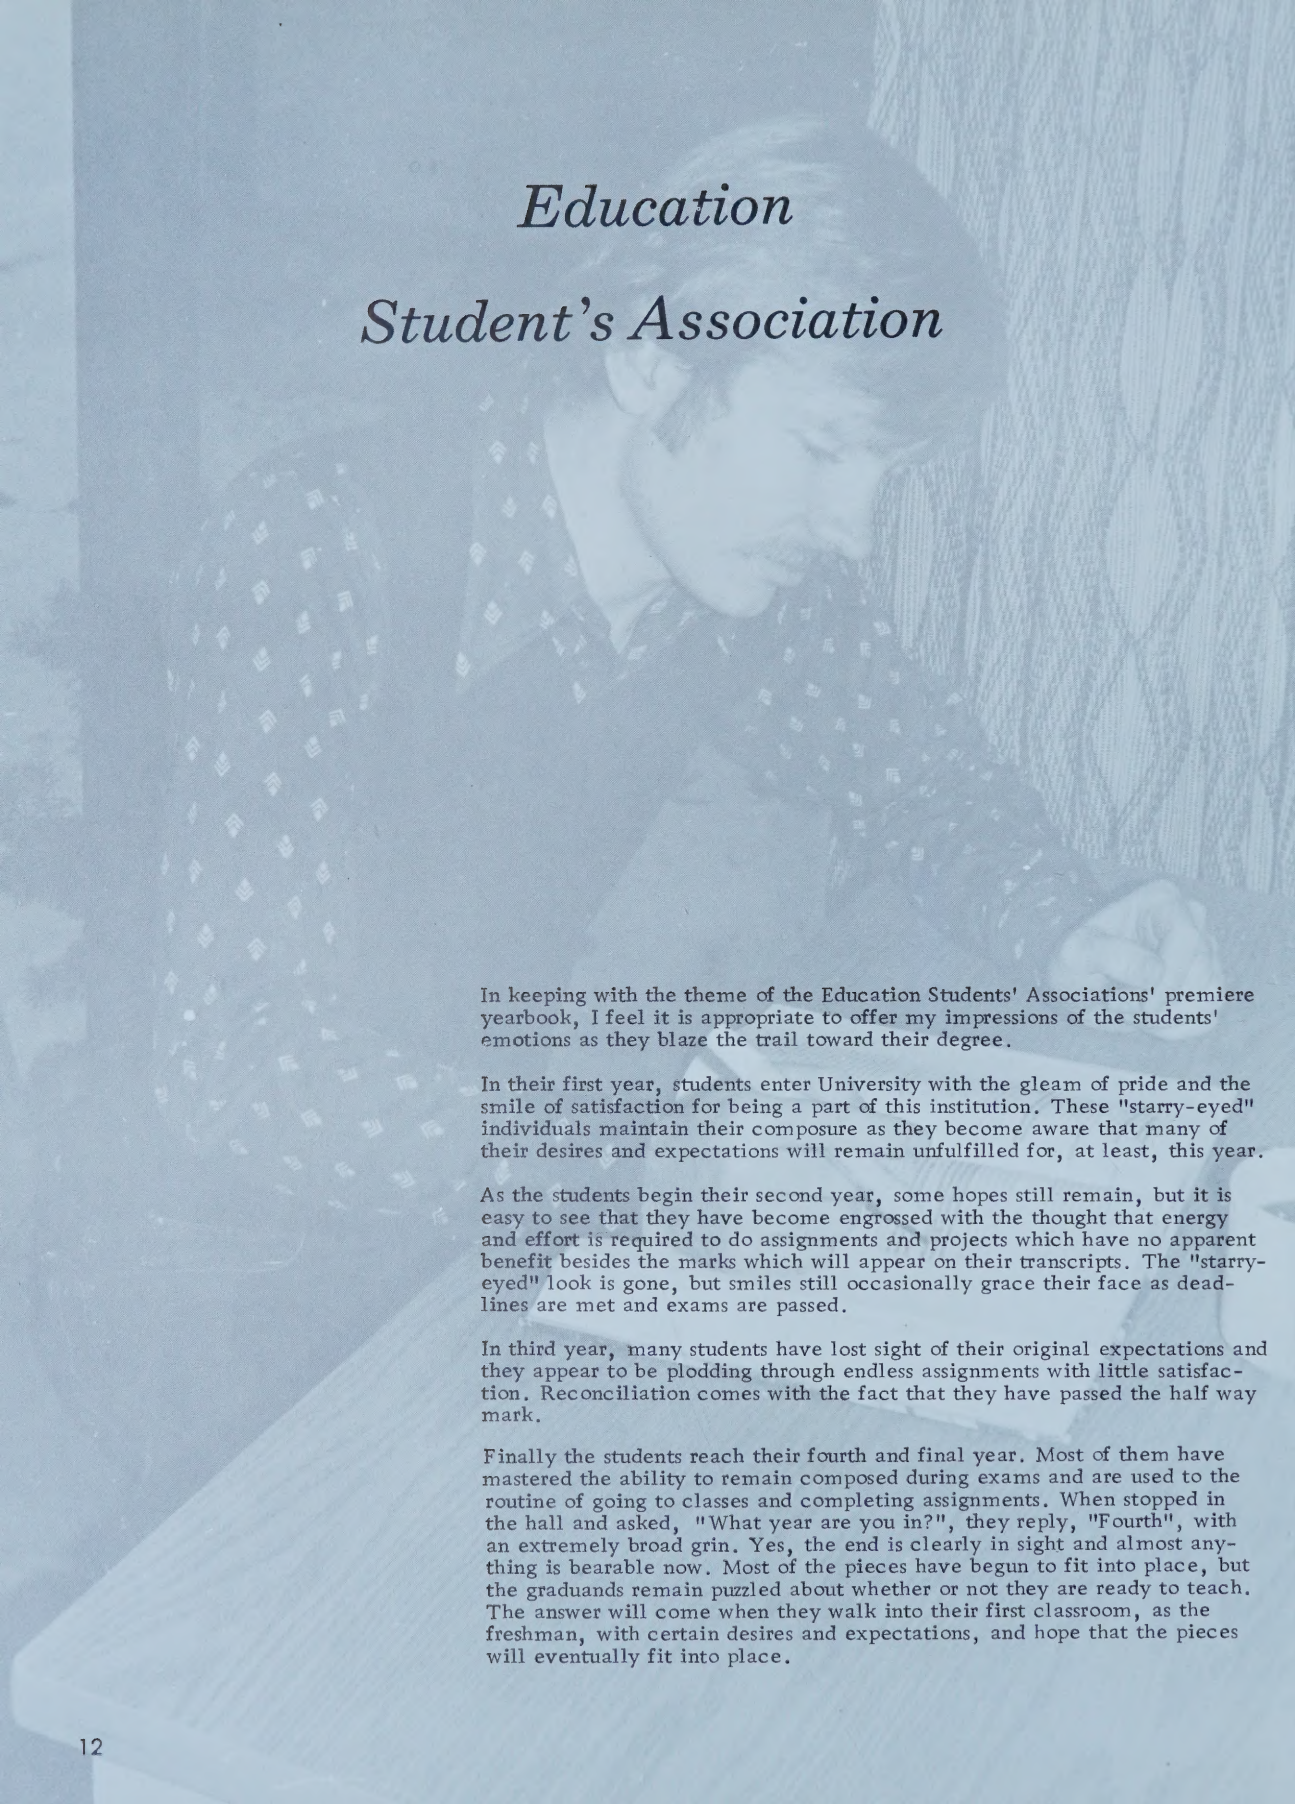

Answer: We do offer one: "Project Morning Star". It prepares native people to teach native children. It is a four year B. Ed. program, 2 years here and 2 years practical experience.

Question: There seem to be more teachers in our society than available teaching jobs. Therefore, why does the university keep producing teachers?

Answer: There should be a free choice, within limits. The markets for teachers fluctuates, the surplus of teachers is regional (ie: Edmonton, Calgary). It is also difficult to predict over a long run. It is not a prudent use of public resources, however, to turn out too many people in a field. I would like to see a quota imposed by the way of ceilings by specialization.

Dr. W. H. Worth

A background image of a student with dark hair, wearing a patterned sweater, looking down at a book or paper. The image is faded and serves as a backdrop for the text.

Education

Student's Association

In keeping with the theme of the Education Students' Associations' premiere yearbook, I feel it is appropriate to offer my impressions of the students' emotions as they blaze the trail toward their degree.

In their first year, students enter University with the gleam of pride and the smile of satisfaction for being a part of this institution. These "starry-eyed" individuals maintain their composure as they become aware that many of their desires and expectations will remain unfulfilled for, at least, this year.

As the students begin their second year, some hopes still remain, but it is easy to see that they have become engrossed with the thought that energy and effort is required to do assignments and projects which have no apparent benefit besides the marks which will appear on their transcripts. The "starry-eyed" look is gone, but smiles still occasionally grace their face as deadlines are met and exams are passed.

In third year, many students have lost sight of their original expectations and they appear to be plodding through endless assignments with little satisfaction. Reconciliation comes with the fact that they have passed the half way mark.

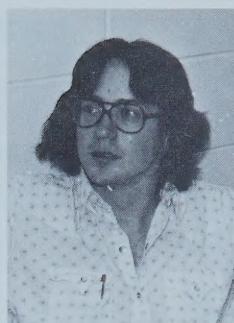

Finally the students reach their fourth and final year. Most of them have mastered the ability to remain composed during exams and are used to the routine of going to classes and completing assignments. When stopped in the hall and asked, "What year are you in?", they reply, "Fourth", with an extremely broad grin. Yes, the end is clearly in sight and almost anything is bearable now. Most of the pieces have begun to fit into place, but the graduands remain puzzled about whether or not they are ready to teach. The answer will come when they walk into their first classroom, as the freshman, with certain desires and expectations, and hope that the pieces will eventually fit into place.

(1st term only)

The E.S.A. office is a place to go, to meet fellow students, for a cheerful conversation, intellectual discussion, sing-along, or a cheap cup of coffee, all in a friendly atmosphere. It is always open to new faces and ideas, and everyone is welcome.

Thou hast taken me away
To an institution of frustration and joy
And filled me with knowledge and experience
That lingered on - day to day.

Thou has made me pause
To look back and think
Of years that seemed so long
Yet only employed a short portion of life
And made me realize
I've much to know and much to grow.

I now look forward into the future
For what unfolds I yet not know
As long as I know happiness and satisfaction
Thou hast prepared me to MOVE ON . . .
to aspirations unfulfilled.

... Looking Back

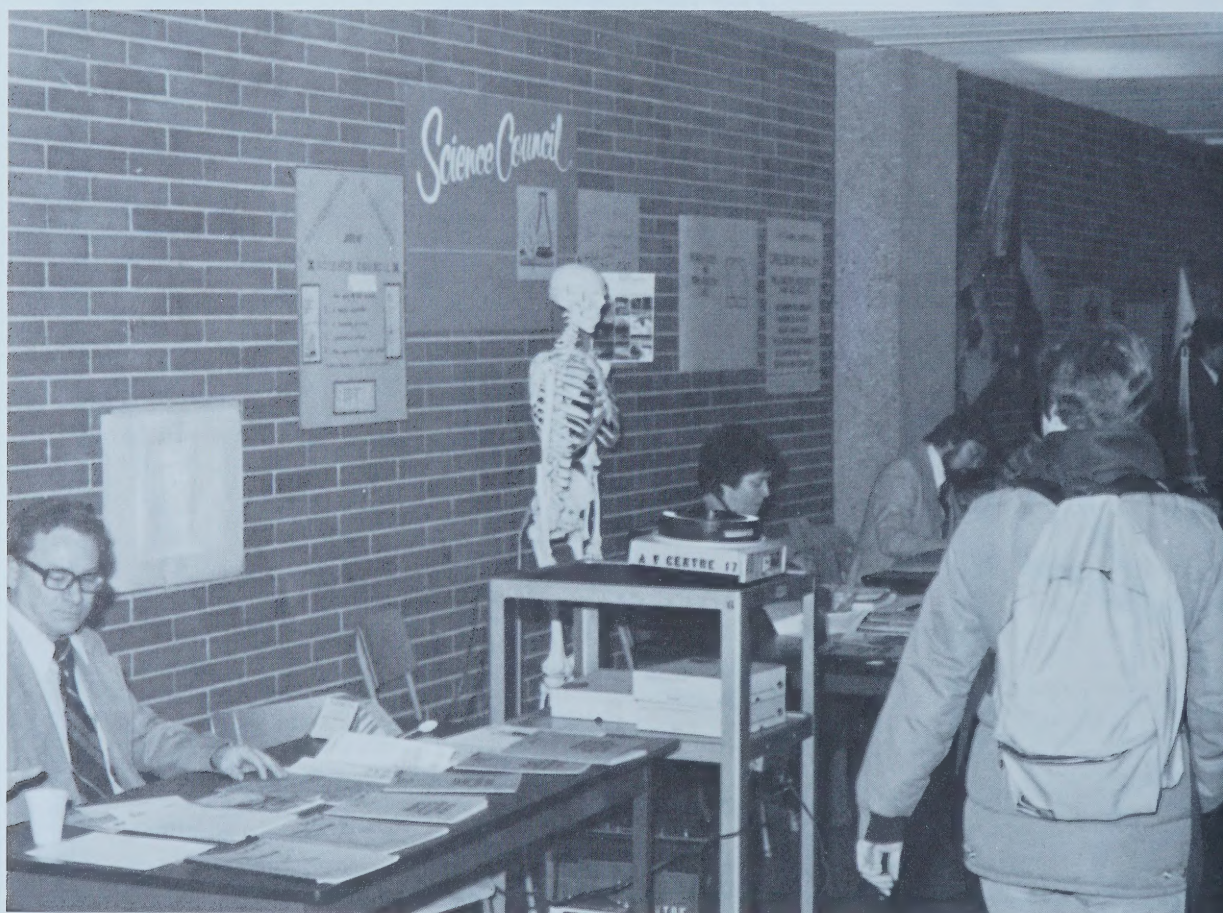

*The friends we meet,
the extras we par-
ticipate in combine to
form a basis to a
whole new learning.
A learning, equally as
important as the
academic. It is
through these ex-
periences we are
moulded into in-
dividuals, able to
socialize and ex-
perience a full life.*

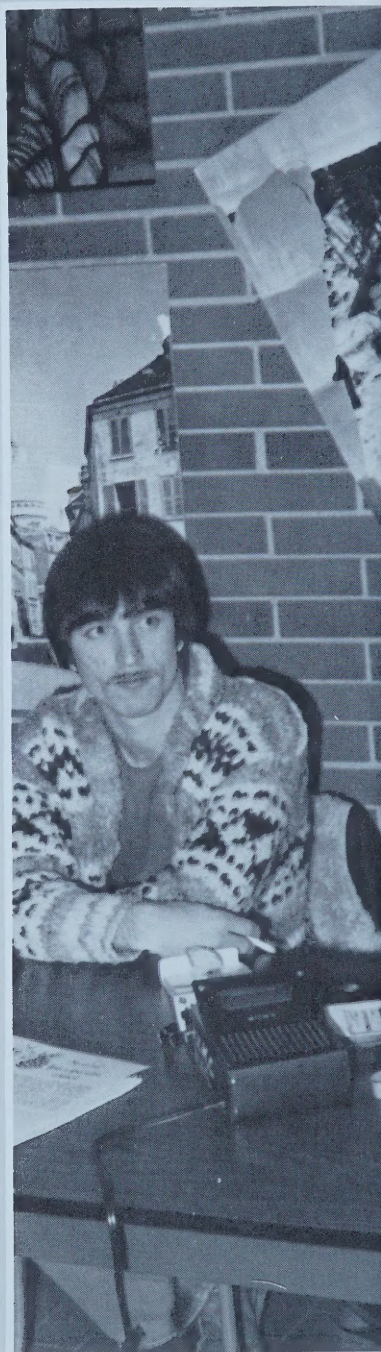

Activities

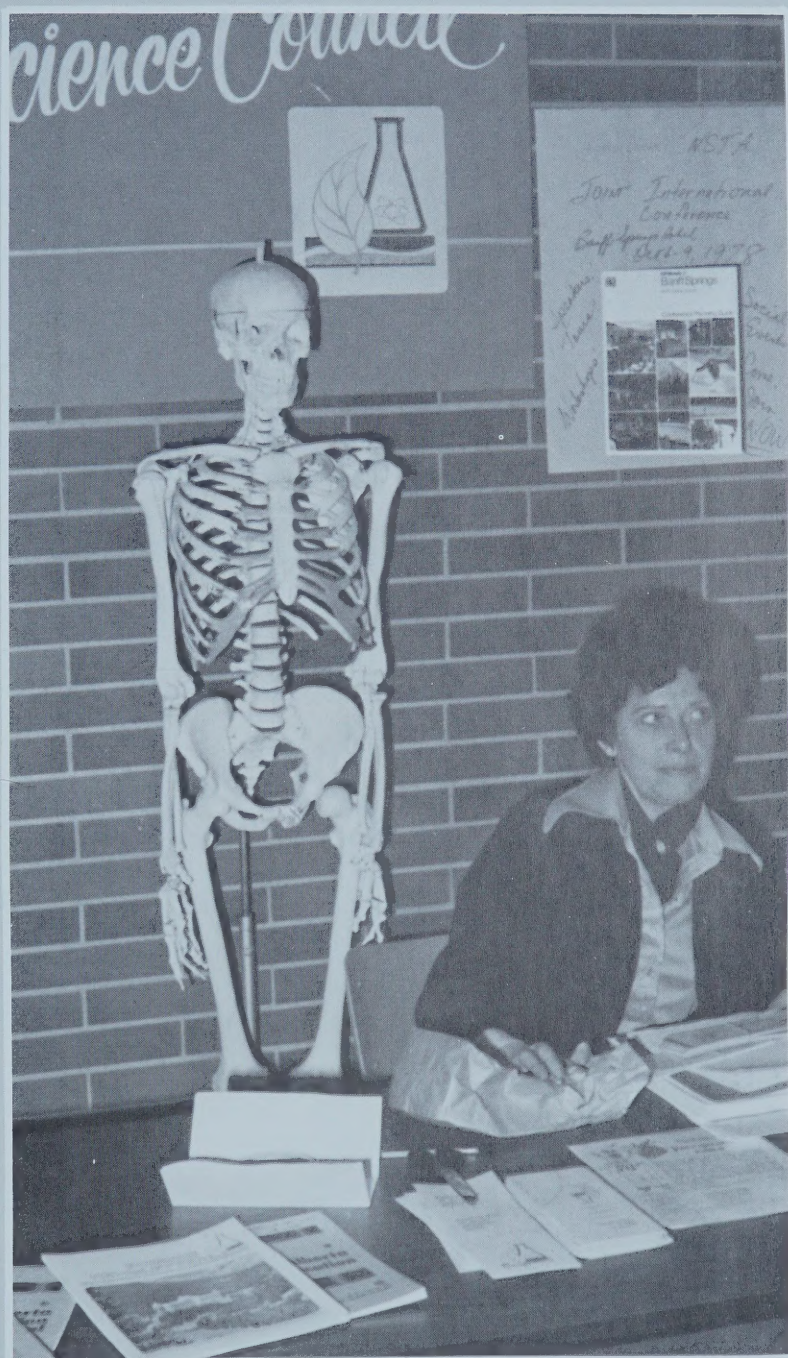

Specialist Council Displays

The A.T.A. Specialists Councils set up booths in the lounge of the Education building to show future teachers what services were available to them when they begin work. Some of the displays were by the following councils: Early Childhood Council, English Council, Science Council, French Council, and many more. They provided a very valuable insight into the types of help a future teacher can expect in his work.

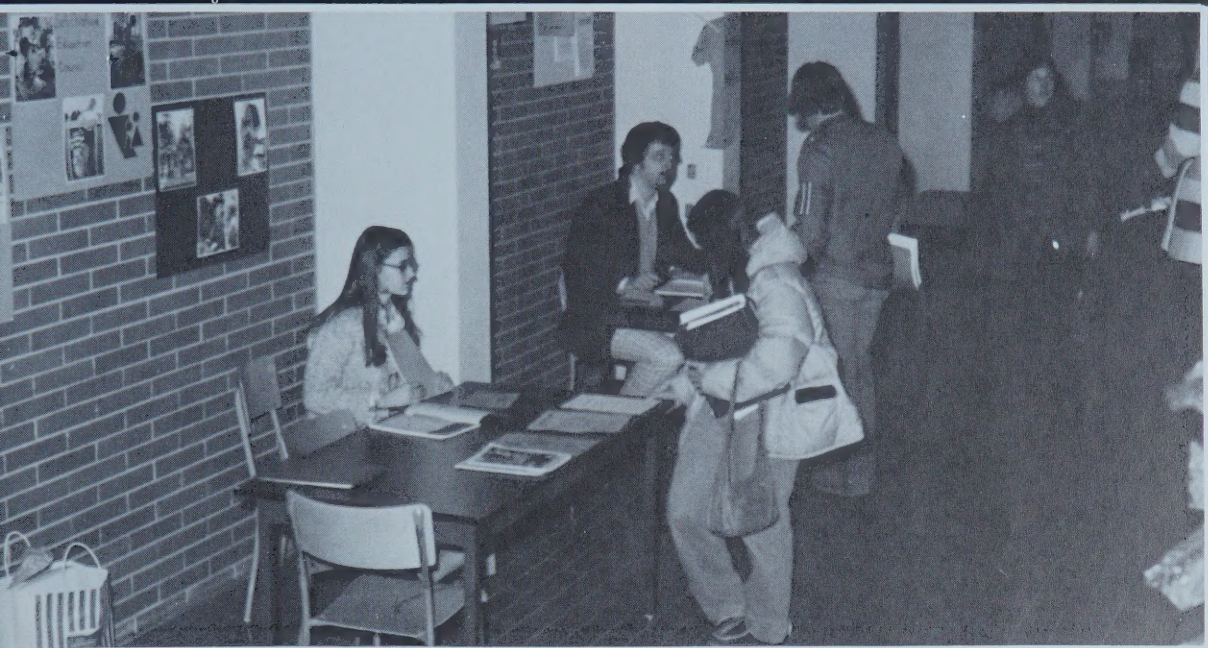

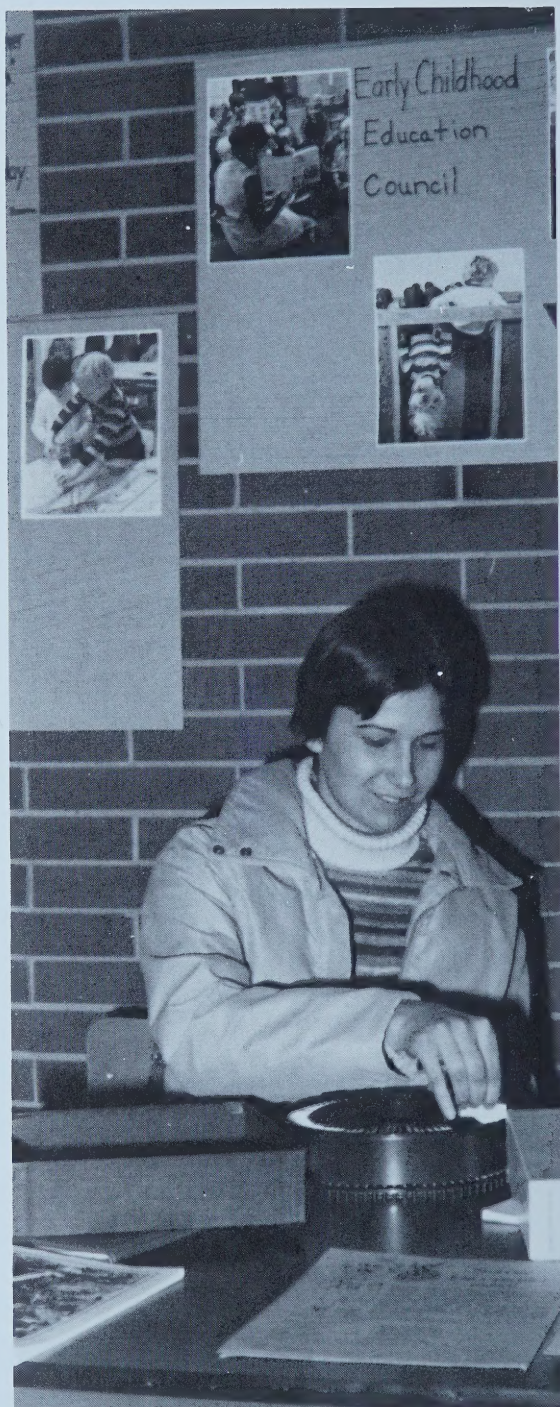

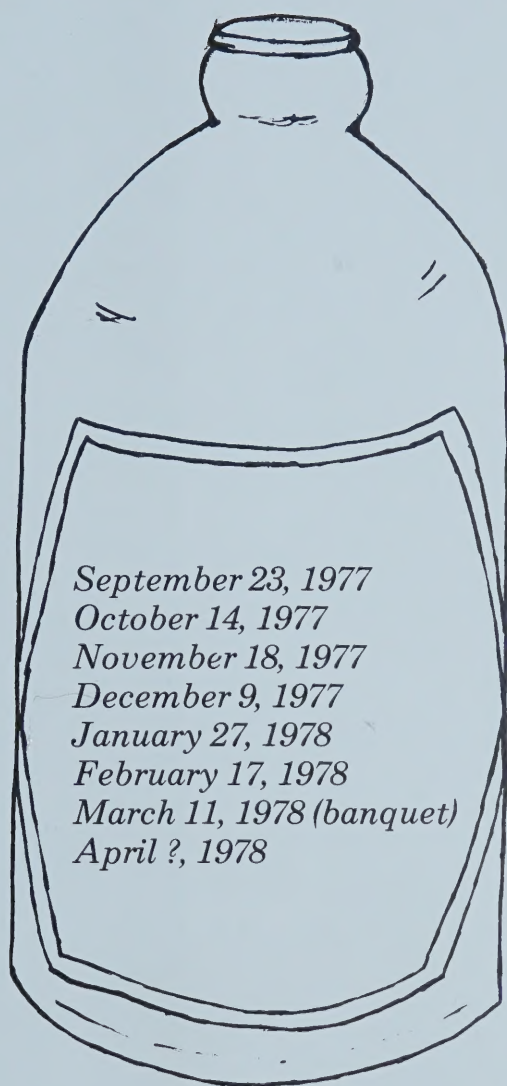

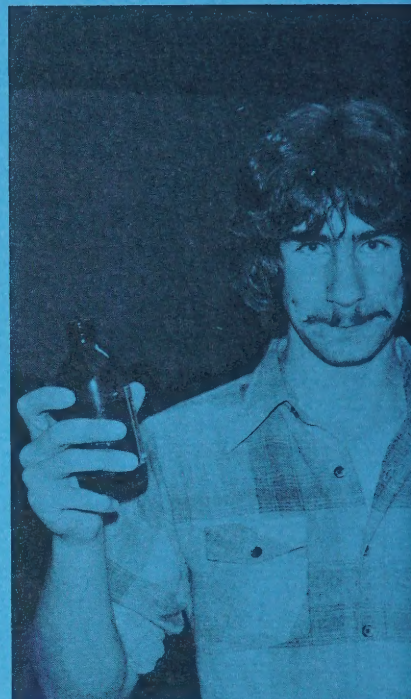

Socials

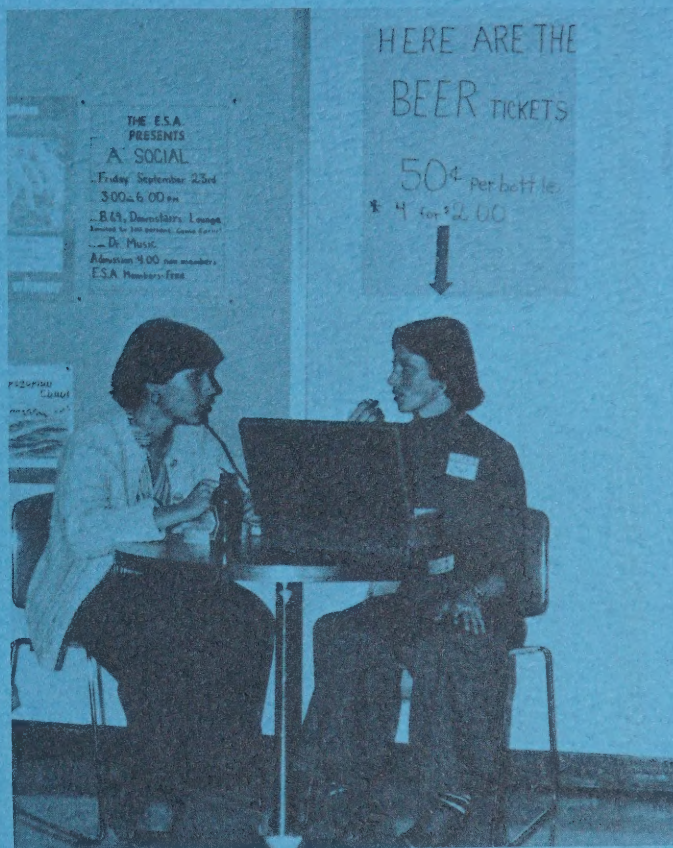

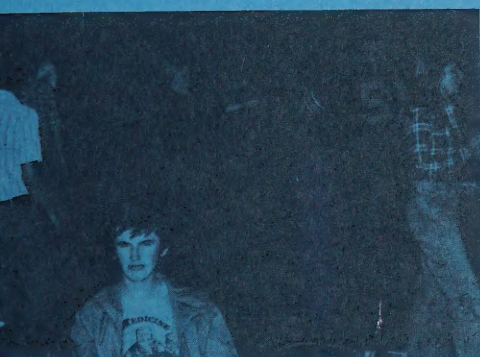

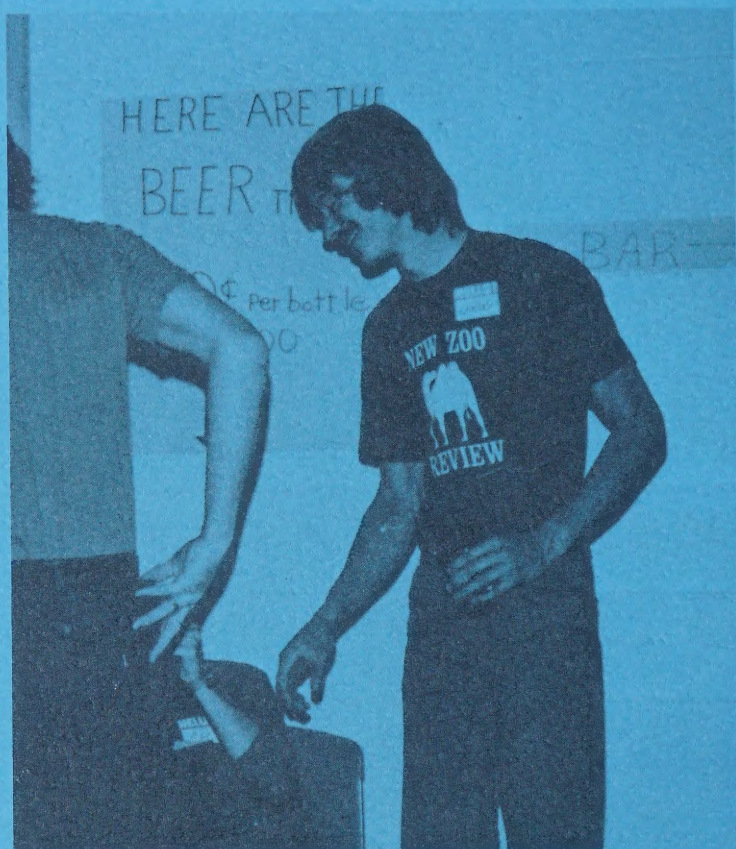

A Laugh, A Smile.
A symbol of Love
For others to come
to know you by.

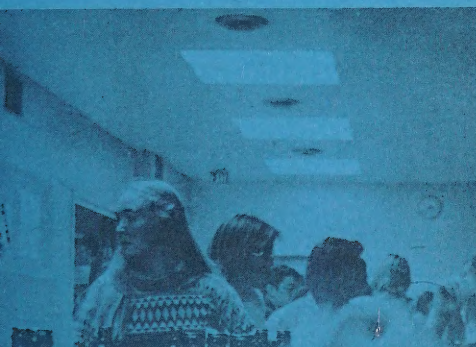

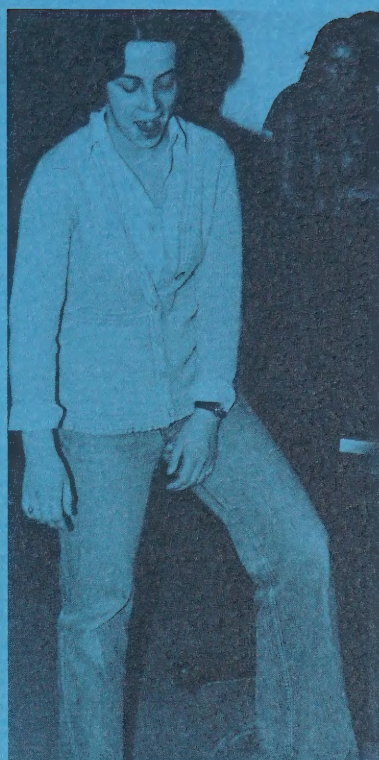

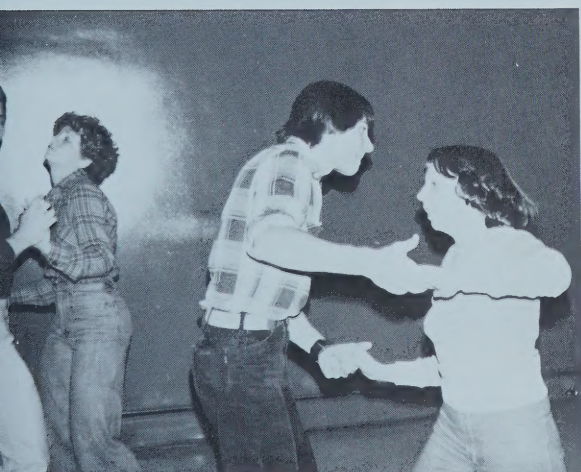

*When life begins Love is ever present,
As time goes on your love is tested
but still remains.*

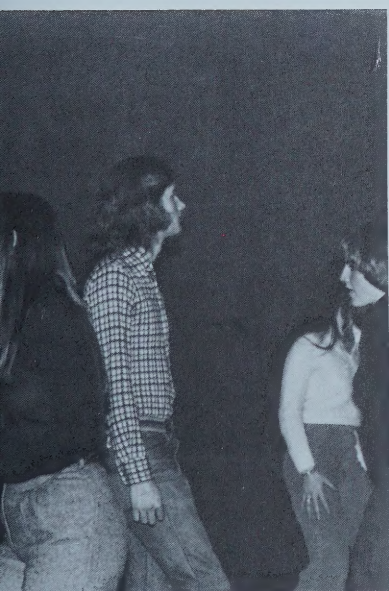

Activities?!

Meet G.O.D.

The Good Old Dean

On Nov. 25 the dean, Dr. W.H. Worth, held a forum in the main floor students' lounge. He gave his views on some aspects of our education then he opened the floor to questions. Topics such as quotas, basic education courses and professionalism were covered. The students involved, gained an insight into our dean's views on topics that are relevant to all of us.

Job Search Forum

On November 25, a job search forum was staged in the main floor lounge of the Ed. building. The speakers were from various school boards. They discussed the following topics:

AUTOBIOGRAPHIES

- should be precise*
- include all experience ie: summer jobs, volunteer experiences*
- explain any offices held*
- give a list of organizations in which you were involved*
- any music or art experience*
- mention any travelling done.*

REFERENCES

- obtain references from past jobs*
- possibly from advisors of clubs or organizations you belonged to*

ACTUAL INTERVIEW

- use good common sense, be organized*
- be straight forward, serious, show committance and dedication*
- relate strengths, don't undersell yourself.*

The forum was informative. Students who attended seemed to gain insight into the job market. We would like to thank all who participated and hope to make this a yearly event.

WHO KNOWS?

Who knows what I see
When I look into your eyes.
The sparkle of a thousand stars,
or the tears that say good-bye.

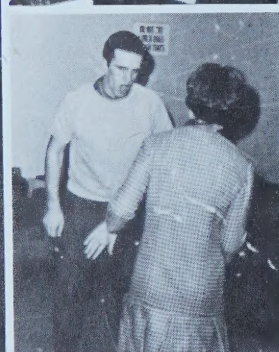

Who knows what I hear
In the silence that surrounds
The pounding of our heartbeats
or the uncertainty that abounds.

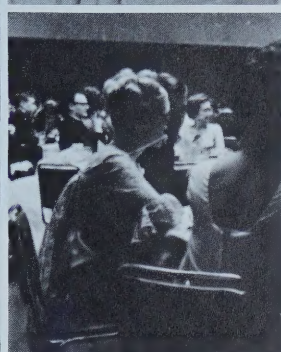

Who knows what I taste
When your lips are close to mine,
The sweetness of the morning dew
or the bitter taste of wine.

Who knows why I feel
The emptiness I do
Life will never be the same,
Now that I have lost you.

Al Minue

Past Activities

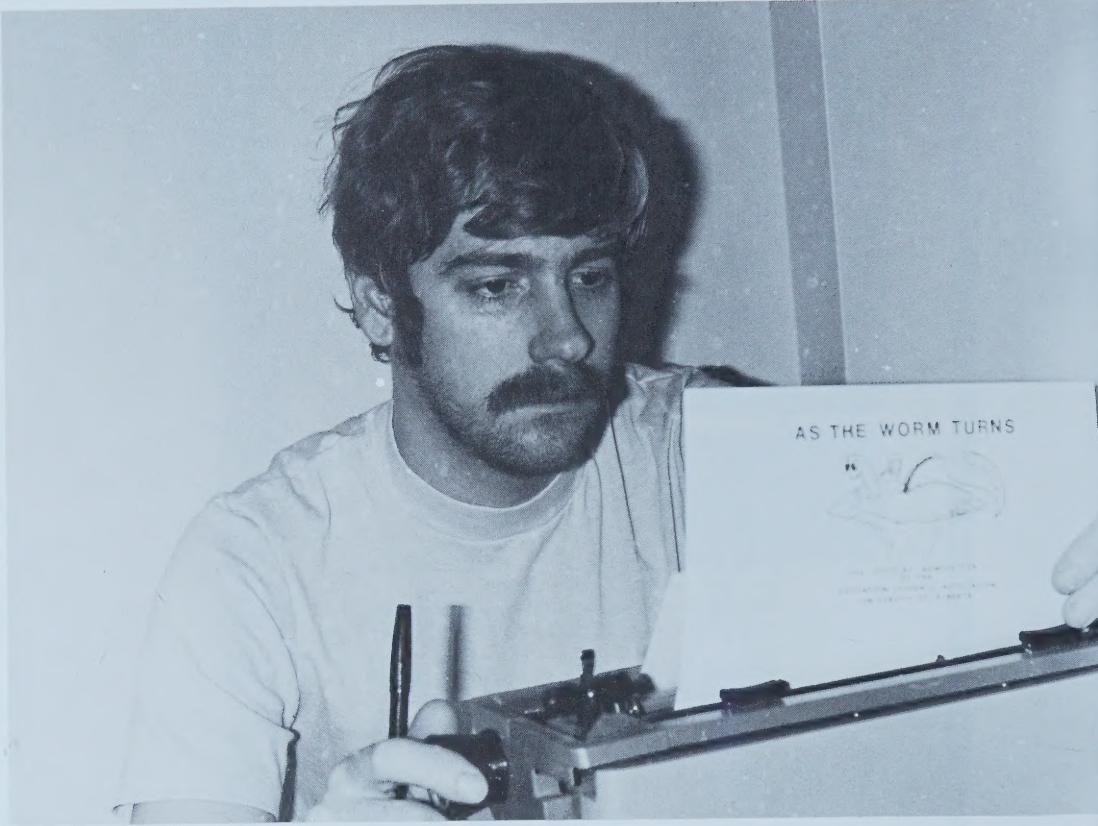

Feel the frustration as the deadlines nears,
See the results of the toil and tears,
People who love, all the things they do,
and give a part of themselves to me and you.

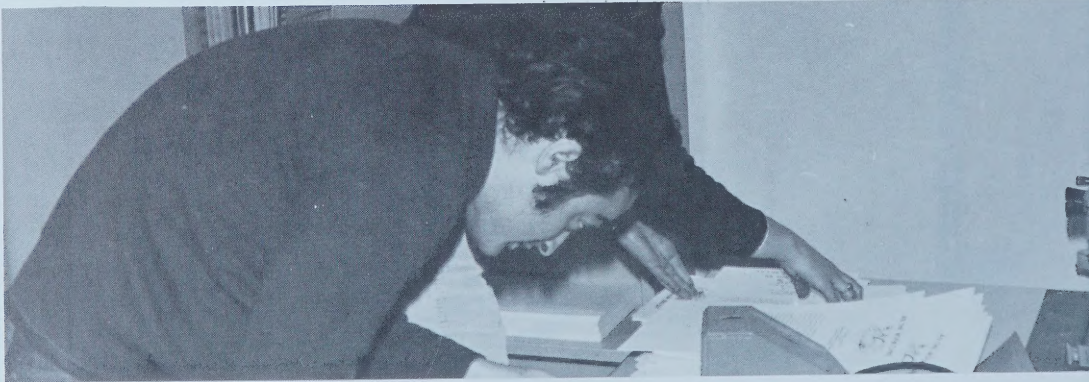

Who are these people who work constantly,
The results of their efforts for all to see
Those who do all this without pay
Deserve our thanks every day.

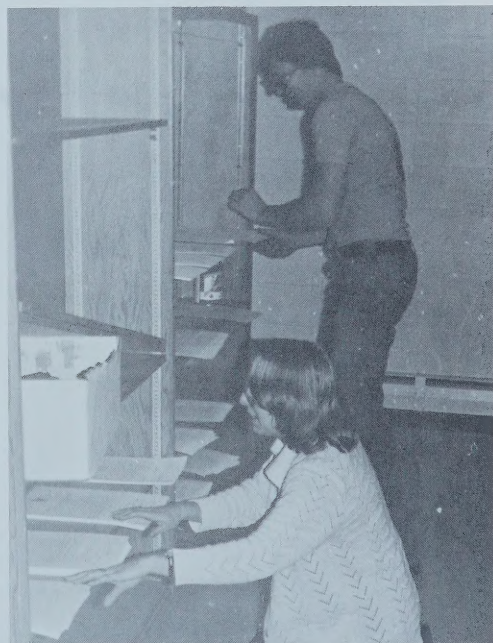

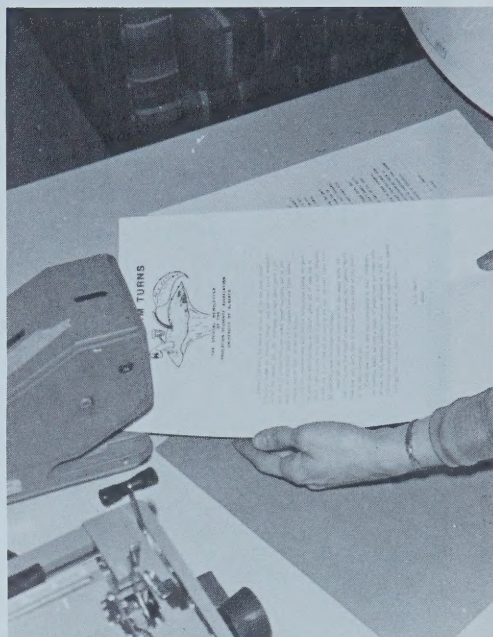

Organizations

Newsletter

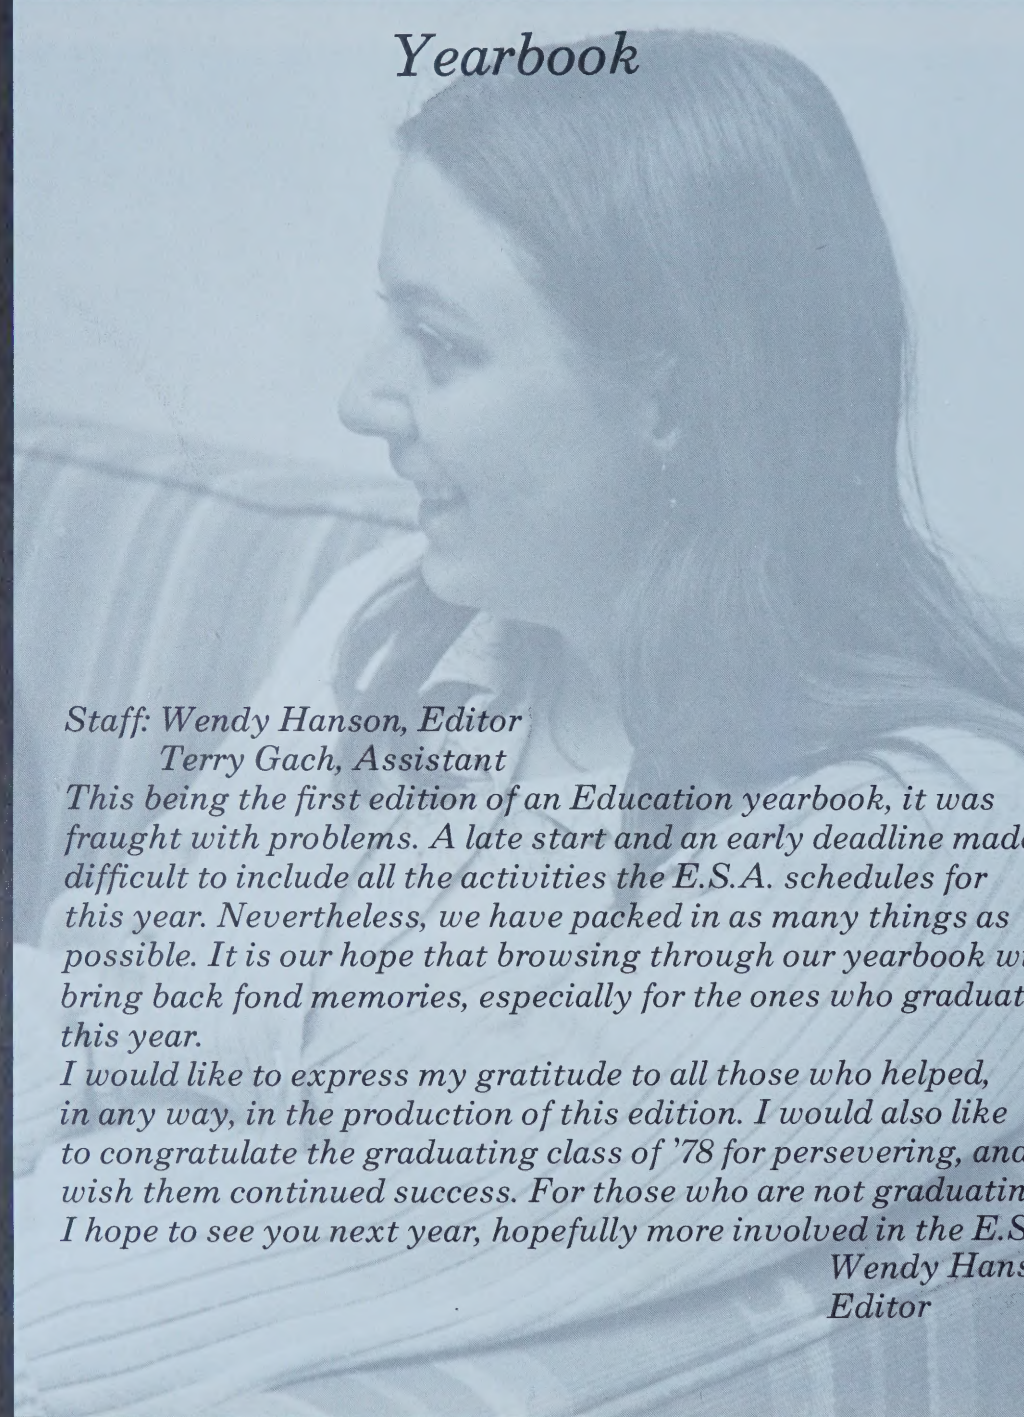

Dennis Harris, Editor

Yearbook

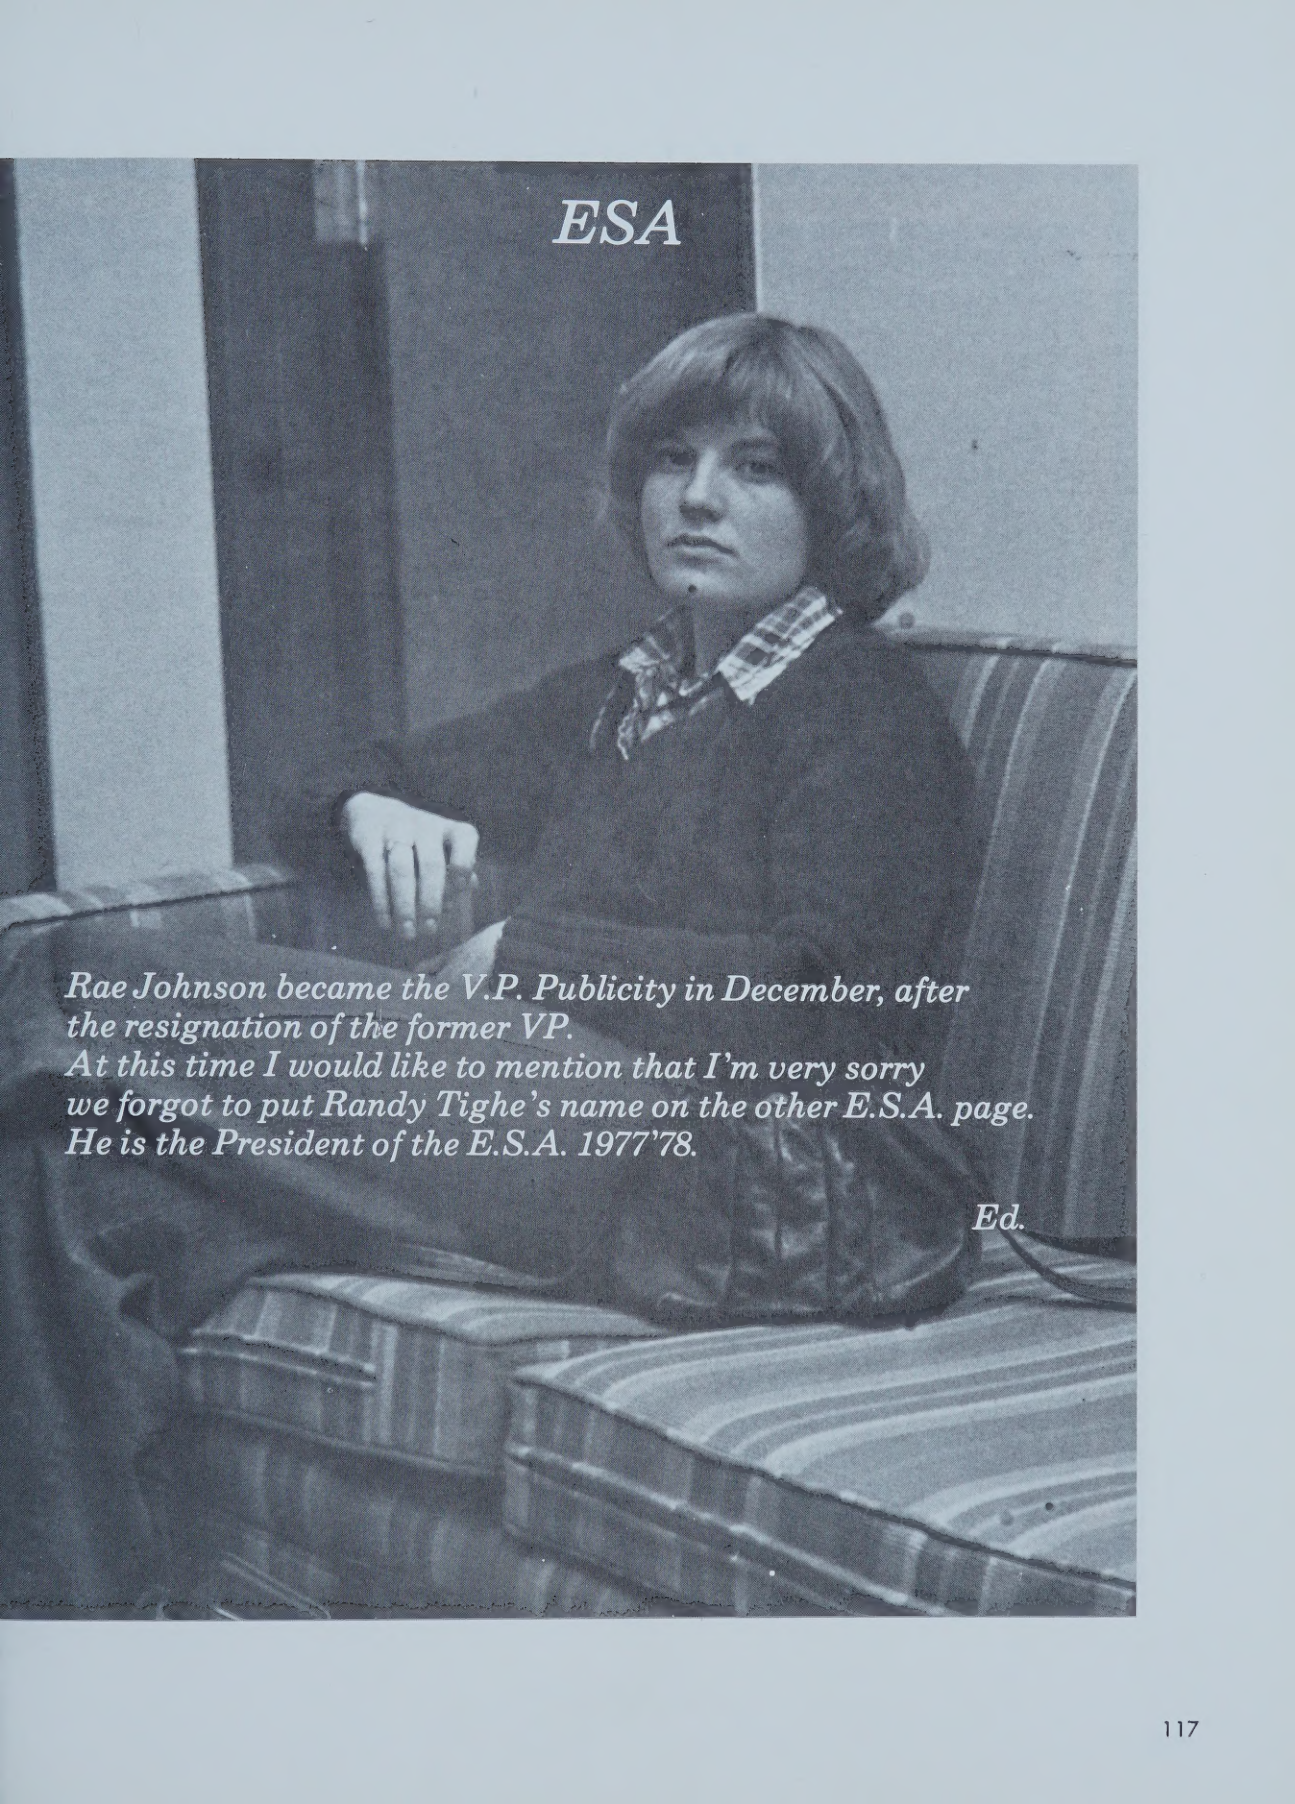

*Staff: Wendy Hanson, Editor
Terry Gach, Assistant*

This being the first edition of an Education yearbook, it was fraught with problems. A late start and an early deadline made it difficult to include all the activities the E.S.A. schedules for this year. Nevertheless, we have packed in as many things as possible. It is our hope that browsing through our yearbook will bring back fond memories, especially for the ones who graduate this year.

I would like to express my gratitude to all those who helped, in any way, in the production of this edition. I would also like to congratulate the graduating class of '78 for persevering, and wish them continued success. For those who are not graduating, I hope to see you next year, hopefully more involved in the E.S.A.

*Wendy Hanson
Editor*

ESA

Rae Johnson became the V.P. Publicity in December, after the resignation of the former VP.

At this time I would like to mention that I'm very sorry we forgot to put Randy Tighe's name on the other E.S.A. page. He is the President of the E.S.A. 1977'78.

Ed.

Volunteers

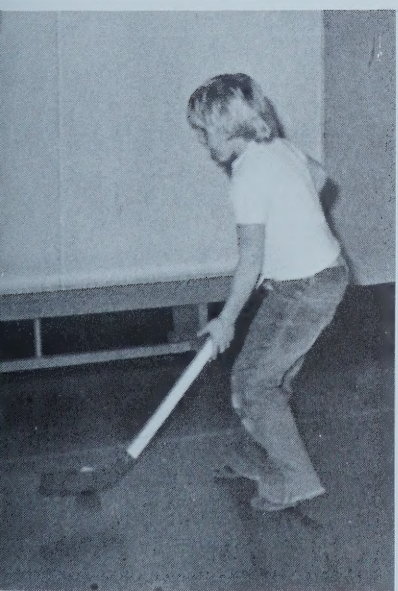

Barry Gibson, Coordinator

We watch the rise
of that invincible spirit,
potent energy.
It focuses and
gives.
Then the cycle returns.
Giving back
What was
Given out.
This brief exchange in which
Nothing material is given or received,
Leaves each with something more.

What are you talking about?
All I wanted was some practical experience.

Early Childhood Education Council

The U. of A. E.C.E. Council is an Alberta Teacher's Assoc. specialist council with the objective "to improve practice in the specialty by increasing members knowledge and understanding."

This year our 150 members were kept informed about E.C.E. happenings through a newsletter formed by the Alberta Regional. Also, the needs of our members were met through our monthly meetings. These meetings ranged from parent-teacher interactions, puppetry to cooking in the classroom.

Our council joined forces with the E.C.E. Edmonton Regional Council to produce a successful mini-conference in January. It was the first of its kind in Alberta and we were excited to be part of it. Some of the sessions focused on learning centers, music, creative drama and storytelling.

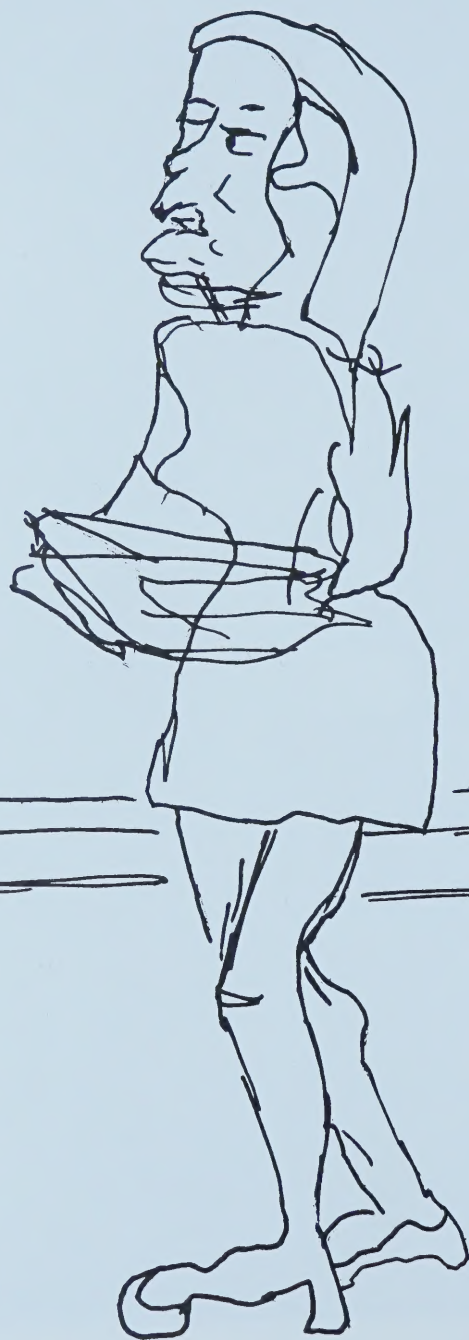

A thank you to the members of the U. of A. E.C.E. '77-'78 for their involvement during the year. And on behalf of U. of A. E.C.E. '77-'78, a very special thank you to our advisor, Dorothy Howard, an E.C.E. professor.

The E.C.E. Executive: Shurli Cormin, President; Ruby Pukalo, Pub. Director; Marge Rice, Sec. Treas.; Cathy Webb, President Elect.

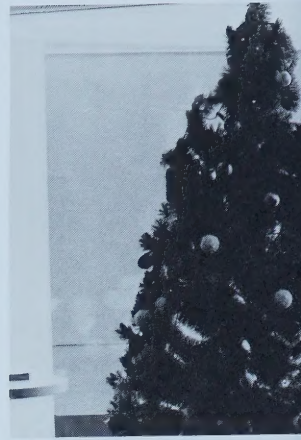

Who can forget . . .

DOCTOR "Are you looking for a new and more versatile method of approaching your treatment plan?"

We at Barracough Laboratories have found the ultimate combination in gold alloys co-ordinated with precision workmanship and service.

ULTRA-BOND - The noblest porcelain to gold alloy available. Excellent for all designs involved with crown and bridge construction.

STRATO-BOND - A new white gold porcelain alloy that has twice the toughness of any other in its class. The ultimate advantage is the significant saving with a lesser specific gravity and lower purchase price.

BARRACLOUGH LABORATORIES

ASTRO-LITE - A low cost gold alloy that has eliminated any possibility of tarnishing, the color closely resembles that of most expensive gold alloys. Its working qualities (Burnishability) and fit also compares favorably with high gold content alloys.

You'll never know, Eve,
till you ask...

so ask us!

at the Alberta Women's Bureau

If Eve had been able to ask someone about her rights and responsibilities, perhaps she would have decided against the apple.

Fortunately, today's Alberta woman can ask us for free information on a number of topics that affect her in business, legal or social situations.

- ☐ A Woman's Rights
- ☐ A Brief Look at the Women's Movement
- ☐ How to Prepare a Meaningful Resume
- ☐ Changing Your Name

- ☐ Alberta Labour Legislation of Interest to Women in the Paid Work Force
 - ☐ Establishing a Good Credit Record
 - ☐ Wills and Estates for Albertans
 - ☐ The Illegitimate Child
- and many more. Just ask us. We can probably help.*
